

01 DANCER IN THE WIND

I lied to you for I love you
I lied to you cos I wanted me to seem
Like a dancer in the wind

Edges, edges push me over into a sensational end
Caught in the surreal sorcery that
Was the sensational end
Always blind to the nocturnes and sky
Was the sensational end
Running wild to catch to be caught
Was the sensational end
Fear and nakedness torture trapped in love
Was the sensational end
Senseless paradise summerly closing
Was the sensational end.

Did you look at her?
Was she drawing you ?
Was she drawing you into her day ?
Cos you did it once before
Cos you found a lasting reason
It was all that you needed to do it once again
All those edges all these dances
Leading into the dark spite
Dozing in the stolen dreamer images of you
In the lie I told you
For I lied to you

02 MILLION MILES

Did you see her that day when I left you
Did you see what she could do to you?
I know you could show me even though
You never felt that it was true
I just changed and you didn't want to know
I ran, I ran a million miles to find you
When I saw that she was still there staring
At you with those eyes
Eyes of hyena wild and keen for the kill
I just cried to you in the night Ill never forget
I ran, I ran a million miles to find you
I littered my mind with conscientious thoughts of crime
And jealousy rose in a tempestuous confusion
Sharp incisions lasting in the pain of you.

03 ATTRACTION GAZE

Will this necessarily combine into special feelings
I can not see I find it better not to think
It's worth just going for the experiential abrasion
Then it heals.

Beauty, animal.
No re appearance
No whisper in your ear
No hand on your leg
Where to be in case it attracts
Attraction gaze?

Utter face expression need appearance
Suggestion, extreme defense away
Pretend it's not there
But how you not do it when it's deep inside you
Let it turn

Song sense height activity

Lean over cliff edge ability
No combination, read the sign of coming in your eyes
Falling over the heels of wonder

Go forward walk into the desert
Fear doesn't mean you can't do it
Only that you still thinking
Climbing into the clear blue Dali sky
Anonymous shells try bells
Let it turn.

04 ESCALATOR OF TALL STORIES

Freak your self with a dose of Africa
Love the way you song to me
And priested my way with solemnly chosen words
And ways of lengthy introduction
That took my breath away
Entering my space so unobtrusively
As if you needed to be there
For you - only you
What comes on you, to look at me that way
When your so disquiet
But I couldn't love you anyway
Yes, I could somehow look interested
But just for one day night

Don't let this go up into the escalator of tall stories

It was that way, no frame day
So sing say everything I wanted
To drive on was in the automatic
What's come on you, to look at me that way,
When your so disquiet
That I couldn't love you any way
Yes, I could look somehow interested but
Just for one day -night

No, don't let this go up into the escalator of tall stories

Quick cold mirror screen give me what you feel
I can't help the sun it's so blind
It can't engage this driving in the dark

05 FROZEN ON AN EYE

Those eyes see those sounds come
The cry in the dark in it's intensity wasn't even heard

Arrest this image frozen on an eye

Somewhere held in the palm of the overlooking standing in this space
And the eyes are telling me what
I don't want to know
Going to it all nothing can come of it
Sign side image rolling over the waves
Of the land and the waters of shore
Those eyes see those sounds come
Lapping into the bodies
Of all the dead memories
Left in shell bells of a love dream fantasia

06 DREAMTIME

Jimmy I'm sending you a picture come along with me
Craze me till the hills roll away with the mist song
Love you, love me with you're neat smile and your abandon
The vdu won't hit you 'cos you run too fast
Give me dream time

Hey look at you, look at me sing swimming and waving
At the clock radiation century glow
No information relay looking at the vdu injury
Creeping into electrical sensitivity
Give me dream time

Take over the screen you talk like an angel
Kiss me till your blue and don't revive me
Till dream time
The de-electrification of the 21st century
Is coming towards us
The angst crated and boxed to a pop-star far away
With long blond hair and the see through trousers
Leaping on our screen like a chinese dragon
Selling our song

Give me dream time

Love me all over magic all around you
In the love you make me feel hang it on the wall
Make me feel dream time

07 I LIE THERE

Kissing you in the back of the world,
Loving you in the shades of my mind
Beautiful hands wonderful eyes
Looking to see if your looking at me.

No response in your calm
Till an ocean creates you.

I lie there I be you
Suckling on the tears of my fantasies.

Drawing breathe from these incredible suspicions
When I kissed your body and felt you smile
And the far away reality
Touching the edge

08 I WANTED TO TELL YOU

Sad words on the internet pages grey with lies
But who's out there reading them
When you wish it was no one
Cool head in the chaos don't die out in the tank
With soft illusion to the heart.
Wearing a sleeveless gown
Darting your precious silken hair
In the folds of a madder than rose love you knot
Mirror image
Mirror image on the wall
So long, not so long since I saw you exhibiting
A keen sense of self expression haunting for adoration
I wanted to tell you
I saw you arranging how time goes on
I think I believe you but I'm not so sure
Of this intractable love
It could have been easy
No way can I have you
The deep shadows are telling me.
This canvas like some bandages laid out in front of me
Stretching a soul out

09 RIVER OVER ME

This is the end river over me
This is the end river over me

The rainbow of your lips is so soft and so sorrowful
Into my dreams in the storm of our love

Kisses are like energy communications
Transactions just for you
To love into dark dawn look to the sky star

The rainbow of your lips is so soft and so sorrowful
River of love sky of infinity
This is the end river over me

Up two down one close to the sun
Up two down one belonging to me
Up two down one close to the sun
I love the way you
